

REMOTE MONITORING OF HOT AND COLD WATER SYSTEMS

Managed Water Services
KEEPING WATER SAFE

ALL OF YOUR DATA IN ONE PLACE

Temperature sensors are strategically installed at pre-chosen locations. This takes minutes, is not disruptive and the equipment will not be seen by day to day users.

Data is sent to our secure L8Log portal immediately. You will be provided with a username and password to access this.

The L8Log portal gives us a platform to meet all of your legionella control needs with just a click. We surpass HSG 274 guidelines with constant, accurate monitoring. We analyse the data and provide you with a monthly report to ensure compliance with the guidance.

ELEMENTS

Install

Process

Delivery

SENSORS

TAKE THE WATER TEMPERATURE EVERY 3 HOURS OR WHEN A TRIGGER TEMP IS ACHIEVED

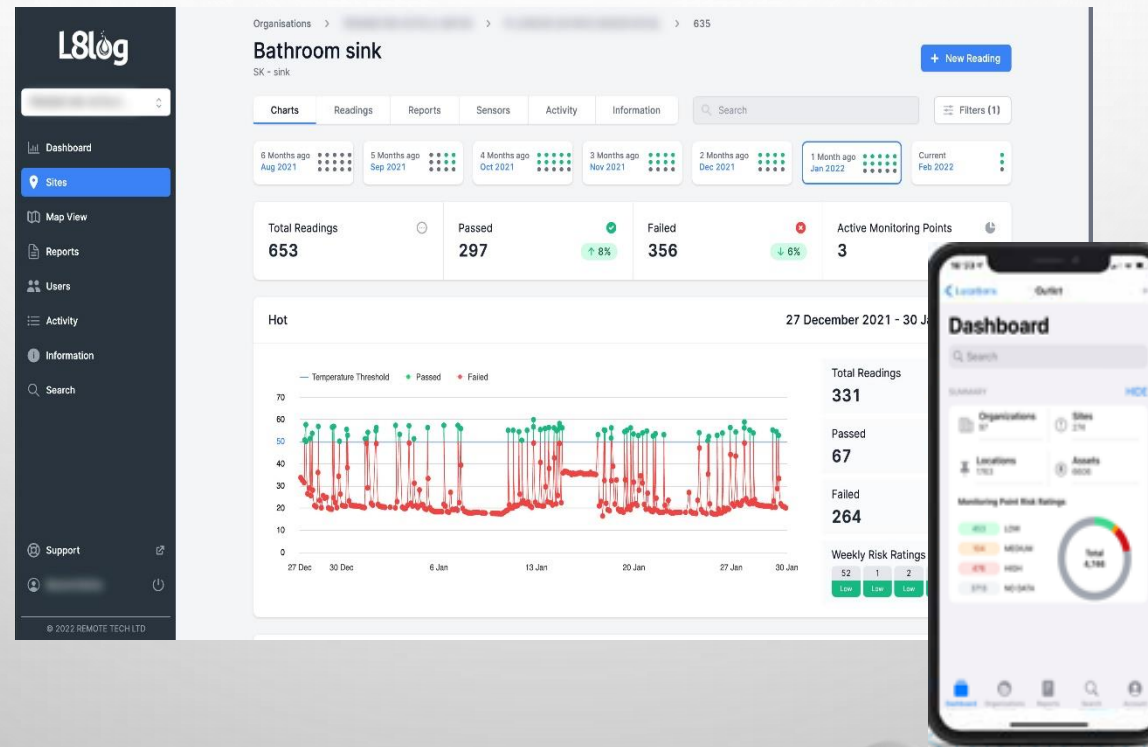

MODULES

SENDS THE TEMPERATURE READING TO THE GATEWAY

GATEWAY

SENDS THE DATA TO L8LOG

L8LOG – ALL YOUR SITE'S DATA IN ONE PLACE ACCESSIBLE FROM ANY SMART DEVICE

KEY BENEFITS

- ✓ IMPROVED COMPLIANCE
- ✓ IMPROVED MONITORING
- ✓ REDUCTION IN CARBON FOOTPRINT
- ✓ IDENTIFIES FAILURES RAPIDLY
